Jesus' DNA Base Pairs Sequencing

Within the Spiritual Realm of Time and Space

Corporate Health Dynamics (CHD) Street Therapy game plan played out in God's name authenticates that all human beings are made in God's image and we all carry His genes, Deoxyribonucleic Acid (DNA), as measured by the Performance Appraisal Indicator (PAI), our personal power scale housed within the CHD model. DNA is the fundamental building blocks of all living things that determines our form and function. DNA also passes genetic information from one generation to the next by making "exact duplicates" of itself. Our DNA genetics base pairs are: T-Thymine with A-Adenine, and G-Guanine with C-Cytosine.
