

Jesus was a Street Therapist

Corporate Health Dynamics (CHD) Street Therapy is the ultimate expression of human performance, and rightly so, because its purpose is to encourage human beings to follow in the footsteps of Jesus Christ, the Son of God as I understand Him. According to the first two words of the Lord's Prayer, "Our Father," we are all God's children, which makes us all spiritual brothers and sisters. This affirms that we are all chips off the Old Block, just like Jesus. Jesus walked the walk and spent most of His reign on the streets healing those who believed in His name. Jesus' path is incumbent on us all.

Why CHD? CHD is a consciousness/connectedness common to all human beings. The "C" represents corporate unity that is found in the body of Christ, "H" represents health that is sacred to us all, and D represents the dynamic force that God has bestowed within our bodies as spirit. God's mission for us is to express our humanity based on spiritual values, honorable intentions, and moral principles. Comparatively, CHD is a representation of the human body and its dynamics. Designed by God, our body is a gift that we have been entrusted to respect, appreciate and praise. Worshipping God is as simple as worshipping that part of us that is God.

We were designed in God's image. In order to maintain that image, we must follow His design, which is our design, to promote and advance spirituality throughout our inner sanctum. This is the hallmark of spiritual leadership. We have been destined to follow His lead so that others may be inspired to follow our lead – a legacy of piety. Jesus, Mohammad, Buddha, Mother Teresa, and all other spiritual leaders have walked this path. It is a path that provides Guidance, encourages Obedience and assures Deliverance (GOD) to higher levels of spiritual consciousness.

In reality, Jesus was a street therapists and it is our responsibility to emulate and replicate His teachings in word and deed. What is the word? The word is that "God is alive and well" in each and every one of us. To walk the talk and proclaim His name give us the power to tower over evil. The simple solution to a mutual evolution is to fight evil by living according to our spiritual design. God has given us a brain to think with, not to sink with. He does not want us to wallow and whine, He wants us to swallow and shine. We truly shine when we all play in a way that makes God's day.

Would God not want the same thing for all of His children as you would want for yours? Jesus and "Our Father who art in heaven," need our help to get the word play out on the streets. Our mission is of vital importance because the streets are where we experience the greatest influence on our minds, bodies, and spirits! To a large extent, it is social content that misrepresent our spiritual heritage. This is why our world has become spiritually impoverished and continues to decline at an alarming rate. What is it going to take to revitalize our spirits, our hearts, and our minds? Waiting for God or His Son's return? We should not lay in wait for God. God is waiting for us to return to our true nature so that we can make manifest His glory all through the power of play.

Our purpose is to turn inward and see the God within and live according to our design and soon we will find the spiritual divine inherent in us all. This is a connection of pure resurrection, and the way it is written to be so that you are in control and remain spiritually free.
