

## Corporate Health Dynamics Street Therapy

---

### The Honest to God Truth, and Nothing but the Truth – a World in Peril – a Must Read!

How can any of us really see the truth when all around us is lies, lies, and more lies (the powerful influence of the infamous streets)? I could say that typically people do not wish to hear or see what can be easily heard or seen. So, we deny that we hear or see anything at all.

Well, here is the honest to God truth whether you want to hear it or not. There are three forces or variables that structure all of life. I put them in an encrypted format (the scientific methodology format is too advanced for most people to conceptualize) that most of you already know as Corporate Health Dynamics (CHD) Street Therapy.

The CHD model, Street Influence, and Therapy Confluence are those three forces/variables that structure all of life and represents the biggest game in town, hands down. Every one of us is playing the game and this game is always in play. We are either playing a part of or apart from our true nature, which is spirituality, housed within the CHD model.

The CHD model – our Performance Goal (PG) – is a representation of the human body and its dynamics. It is the epitome of excellence and a perfect example of how any organizational system should perform its business. We are either following the CHD model's example or we are following someone else's example – Street Influence.

Street Influence is a confounding variable that represents a population with conflicting values, interpretations and ideologies that do not support the CHD model; it distorts the CHD model. This is our Performance deficit (-Pd).

Therapy Confluence is a restorative variable that represents a population with similar values, views and principles who all come together in support of the CHD model. This is our Performance Score (PS).

When these three variables (PG) + (-Pd)(PS) are put into play, they serve as the catalyst that governs every action, interaction and reaction in every aspect of our lives – whether fortunate or unfortunate. These governing variables represent our performance factor (PF) – feelings of comfort or our measures of pleasure – leading to the formation of a values-based equation (VBE) = (PG) + (-Pd)(PS) = (PF).

A VBE has the potential to eradicate illness, make learning effortless and make personal and professional mastery a reality. These outcomes depend on the values that everyone, as a whole, has learned to embrace. However, the game has to be played in high enough numbers in order for it to represent statistical power.

Statistical power is a representation of a population with controlling influence that equals or exceeds 80% over and above one, two or a few individuals in positions of authority, except for the power of God.

In actuality, we are all collaborators in the creation or the destruction that occurs in our lives, amongst ourselves and on the planet on which we live. We are all responsible, and therefore capable of promoting positive social change mediated by statistical power.

What this last statement suggests is that the majority rules in spite of whoever is in power and this is the crux of why our world is collapsing on itself. This collapse is evident by all the chaos that is now occurring throughout our world and it continues at an alarming rate.

It is inconceivable to think that our world politicians (one, two or a few individuals in positions of authority) will ever be able to effectively govern a world's populations defined by "Street Influence." Only God has the power to rule in our favor but this requires a concerted effort within the populations on the planet.

Since we all possess a portion of God's power, all we would have to do to serve as a catalyst for positive social change in this world is to put the power of God into play by playing CHD Street Therapy in God's name.

CHD Street Therapy is the simple solution to our evolution and the key to our invincibility, making that which is often dormant, our spirits, revive and vigorously strive as the ultimate expression of human performance – play.

Less we forget, all the atrocities, as well as the good fortune that occurs in our world, are the result of how God's power is put into play. If we give it up to the Streets, we all suffer and play this game in vain. If we give it up to that which is complete, the Almighty Elite – God, we all advance the evolution of human potential in every aspect of our lives.

However, statistical power has to be played in our favor and that is by demonstrating exemplary behavior, as stipulated in the defining aspects of the CHD model.

Truthfully yours,
