

# The Power of PLAY

## Street Therapy

The “CHD” model above is the Game Piece

The “Streets” are the Field of PLAY

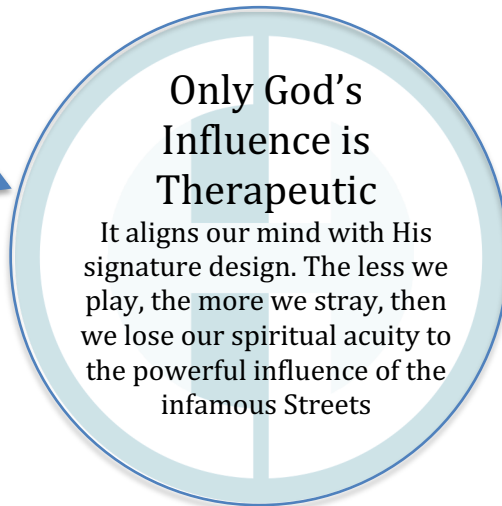

“Therapy” is your Joystick

You use your joystick to get your measure of pleasure without being consumed by Good Time Overload (GTO)

The CHD model is God’s signature design that manifests as the “Circle of Life”

You can’t have a design (circle) without two opposing forces (parts) - one inner (spiritual) and the other outer (material).

God’s signature design is a complimentary inner/outer design expressed as “opposites of equal proportions of power that bilaterally manifest a third power of one” – the Circle of Life.

Street Influence: Diluted, Polluted and Convolved

The Streets are where we experience the greatest influence on our minds, bodies and spirits.

Therapy is how we apply that influence in our everyday lives based on the values we that have learned to embrace.

Are those values therapeutic or do they leave our bodies diluted, polluted and convolved - GTO?

Play it out and see what comes about. “Get the Therapy!”

## How to PLAY

Simple as: 123

Your objective is to “Get the Therapy!”

You get the therapy by taking every opportunity to:

1. Move your feet!
2. Watch what you eat!
3. Be the elite when you’re out on the Streets! Then ask yourself, “Is my PLAY performance therapeutic, or does it leave my spiritual body diluted, polluted and convolved?” Then, do it anyway!  
You will achieve clarity in spiritual health, healing and prosperity.
